Re: Question 13. Economic development Provisions of the Community Reinvestment Act Regulations Docket (R-1769) and RIN (7100-AG29)

Hello, we are submitting a comment letter with respect to Question 13 in the recent NPR for CRA Reform.

SonderMind is a leading mental and behavioral health care company providing accessible, personalized care that produces high-quality outcomes for individuals. SonderMind's individualized approach to care starts with using innovative technology to help people not just find a therapist, but find the right, in-network therapist for them. From there, SonderMind's clinicians are committed to delivering best-in-class care to all people by focusing on high-quality clinical outcomes. To enable our clinicians to thrive, SonderMind defines care expectations while providing tools such as clinical note-taking, secure telehealth capabilities, outcome measurement, messaging, and direct booking.

SonderMind contracts with most major insurers in the 16 states we serve, as well as Medicare and the Veterans Administration. We believe in expanding access to care for those who need or want to use insurance to access care, as well as providing competitive cash pay rates.

As a U.S. military veteran myself, we as a company have made an effort to support veterans in particular both in terms of employment and therapeutic care. To date, we have employed 10 veterans at SonderMind and have served 2,546 veterans through our platform.

Kickstart led our seed round about four years ago. At the time, our company had 12 full time employees in Colorado. Now, we have nearly 300 employees spread across the country, positively impacting those individuals, their families, and their communities with good-paying jobs with robust benefits working for a mission-driven organization.

After closing our \$150M Series C round, we continue to be grateful to have Kickstart as an important advisor and capital partner through our journey of redesigning mental and behavioral health to improve access, utilization, and outcomes.

-Mark Frank, CEO and Co-Founder of SonderMind
